

# family letter

Dear Family,

You should be very proud! Your child has just earned a certificate for learning how to **stop! drop! and roll!** This extremely important fire safety lesson is the correct action for your child to take if his or her clothes should ever catch on fire.

To let your child know how proud you are, please display the **stop! drop! and roll!** certificate in an important place in your home. Ask your child to show you how to **stop! drop! and roll!** and practice this life-saving lesson often with your child. Always remind your child that **stop! drop! and roll!** is to be used only if there is **fire** on some part of their clothing.

The correct way to **stop! drop! and roll!** is to:

1. **Stop** exactly where you are.
2. **Drop** to the ground and lie flat, covering your face with your hands.
3. **Roll** from one side to the other side until all the fire is out.
